

17 October 1962

25X1A

MEMORANDUM FOR: CHIEF [REDACTED]

SUBJECT: Allocation of Project Engineering Manpower  
on the R&D Program

25X1A

1. The attached pages provide the allocation, in terms of per cent of total working time of Project Engineering manpower spent on the various categories of the [REDACTED] R&D Program.

2. The listing is so arranged by branch as to supplement the R&D Program book.

3. When added up, most totals for a specific Project Engineer do not equal 100% because of current time being spent on projects not funded in FY 1963. In other cases, administrative and supervisory responsibility accounts for part of their time.
